EchoCuba *Ministry Model*

The church needs pastors and leaders with sound theological training who can equip and shepherd their flock. That's why EchoCuba comes alongside national leaders and communities by working in partnership to strengthen leaders in the church. Through biblical study materials, practical pastor resources and training programs, Christian leaders in Cuba can effectively lead the growing church. Through many years of experience working with the independent Evangelical churches, EchoCuba has created meaningful partnerships with all denominations, thus providing a unique reach of the entire island. As a service to the church in North America, EchoCuba coordinates and facilitates Mission Trips to provide access and learning opportunities for Christians to see first-hand the work and needs of the fast-growing Christian church in Cuba.

Prayer Strategy

EchoCuba staff prays on Monday mornings for God's leading. The prayer team leader receives requests from the staff, board, and donors. EchoCuba is concerned that without adequate pastoral care, Cuban Christians remain especially vulnerable to the influence of cults that distort the truth of the Bible. Our prayer is that Cuba's growing church urgently needs leaders with a solid foundation in God's Word so that the Gospel message is not compromised; please join us.

EchoCuba Growth Strategy

EchoCuba is committed to a leadership role on Cuba's religious issues and to help increase the visibility and relevance of specific issues facing the church. Expansion of the ministry is conditional that 80 cents (80%) of every dollar donated must go to programs. We are firmly committed to good stewardship of funds entrusted to us by our advocates and donors, and promise to use gifts wisely and effectively in Christ's name.
